

SAINT FELIX SCHOOL
SOUTHWOLD

SIXTH FORM COURSE GUIDE 2020-2022

Dear Parents/Students

I would like to welcome you to Saint Felix Sixth Form where we offer a wide range of A Level courses. The decision regarding which subjects to choose at A Level is an important one and should be taken after careful consideration.

The Sixth Form team, consisting of the Head of Sixth Form and a set of personal tutors, are committed to providing the best support, academically and pastorally, to each and every student. Our aim is to spend time getting to know each student's aims and aspirations so we are in a better position to help them overcome any obstacles and to achieve their full potential. We believe in a philosophy of openness and sharing to enable us to work in partnership with parents and to support students through the next two years, whilst equipping them with the skills and knowledge to take that next step on their life journey.

On joining the Sixth Form, each student will be allocated a personal tutor who will act as a mentor throughout their two years. They will have regular half-termly meetings when student progress will be checked against agreed targets. These meetings are informed by detailed feedback from each of their subject teachers to ensure that meaningful targets are set for the student to focus on achieving for their next review and ultimately their future goals. Guided learning is also a part of their weekly schedule with assessment sessions, careers lessons and PSHEE. Students will be given a compulsory structured programme that will prepare them for the next step on their educational journey. This includes UCAS/apprenticeship preparation, CV workshops, work experience and financial management.

Students are encouraged to be actively involved in the life of the Sixth Form and the wider community. Students can also offer support in the Pre-Prep and Prep Departments, for example as sports leaders in games lessons and readers in English. Students in the Upper Sixth have the opportunity to take on additional roles of responsibility throughout the school and these include Heads of School, Heads of Houses and specific officer roles, including responsibility for charity and the Student Council.

I am excited about joining Saint Felix and welcoming you to become part of our Sixth Form community. It is an important step in your education and I look forward to working with you and supporting you to reach your full potential during your time with us.

Karen Treby
Head of Sixth Form

UNIVERSITY DESTINATIONS 2019

University of Nottingham	Engineering and Physical Sciences
Keele University	International Relations and Politics
University of Lincoln	Business and Management with Professional Practice
Loughborough University	International Relations
University of Reading	Business and Management
University of the Arts, London	Interior Design Product and Furniture Design Fashion Design Technology: Womenswear
University College, London	Comparative Literature
Queen Mary University of London	Mathematics, Accounting and Finance Mathematics Business and Humanities Foundation Course
Nottingham Trent University	Psychology
Cardiff University	Civil Engineering
Royal Holloway	Astrophysics
Dundee University	Architecture
Sterling University	International Business Foundation
Academy of Art, San Francisco	Art

CURRICULUM

A broad and exciting range of subjects is offered at A Level. In addition to deepening your knowledge and understanding of subjects you have taken at GCSE, there are new subjects that you can also take.

When choosing your A Levels it is best to focus on subjects you enjoy and in which you can do well. Competition for university places can be tough and you should choose subjects in which you will achieve high grades. However, if you are aiming for a particular route, such as Medicine, you will need to select certain A Levels, which universities expect. Ahead of starting the process, the Head of Sixth Form will meet with students to discuss career aspirations, subject choices and alternative routes. Listen to advice from the adults around you but decide for yourself. You have some way to go before entering the world of work and your ambitions may alter dramatically, so avoid thinking you will definitely follow a particular career path. There is a two-week period of grace at the beginning of the first term in which you may change your mind about your A Levels, but after that, you need to commit to your study programme.

You will be expected to maintain a disciplined level of independent study and be punctual with your work deadlines. There is an emphasis on learning outside the classroom and one of the challenges of your Sixth Form years is to maintain a sensible and healthy work-life balance. You may have a job outside school during this time and you will certainly make new friends and spend some time socialising; we are here to support you and ensure that you meet your targets by the Head of Sixth Form.

FACILITIES

The Sixth Form has a recently developed Study Centre with individual work desks and group pods for discussions and tutorials. This is a productive working environment enabling all students to focus on guided and independent study. Each student has a dedicated pigeon hole.

REFECTORY

The Refectory is open for the Sixth Form and staff during the day. Drinks and snacks are available and each student is given a card with a weekly allowance. Lunch is served in the dining hall and students, if not in lessons, can eat from 12.30.

VOLUNTEERING

Sixth Form is the time when you can become more directly involved with the running of school events. Games Captains work alongside the PE staff to assist with sporting events and as House Captains you will galvanise your Houses into events as diverse as the House Scramble, the House Shout, Saint Felix Day, Sports Day and inter-house quizzes and competitions. You may like to work with younger students to develop their reading skills, run after-school science clubs, or accompany the Prep Department on their annual residential trips. The Charity Committee is in charge of fundraising. Each year the School supports various charities, including Macmillan and Médecins Sans Frontières.

You may choose to explore your own interests and run activities either for your peers or for younger pupils. These have included a cookery club, rugby training, street art, a drama production, language classes, junior gymnastics and a creative writing club. Some students take advantage of the fact that we are a through-school to become involved with the Prep and Pre-Prep Departments.

SPORTS IN THE SIXTH FORM

The Fitness Centre at Saint Felix is open to Sixth Form students at selected times. Other sporting opportunities include badminton, basketball and dance. All students receive lessons in Physical Education and can opt to participate in a range of different sporting activities. There is a mix of traditional team games and recreational activities. Our sports facilities include an indoor sports centre, gymnasium and dance studio, swimming pool, squash courts and fitness centre.

Sixth Form is when some students really shine and represent the school, the area or their county in their sport.

As well as timetabled lessons, students are encouraged to join the many clubs that use the school's facilities. The types of activities offered include basketball, dance, hockey, netball, rugby, swimming and tennis.

THE ARTS IN THE SIXTH FORM

Students interested in all aspects of drama have the opportunity to participate in and assist with major school productions. Facilities for drama include the Silcox Theatre and the more intimate Drama studio. For students who wish to take examinations in Speech and Drama, opportunities exist to obtain awards up to Grade 8 LAMDA, which carry UCAS points. Several students in recent years have won the coveted top award and one student achieved a Diploma.

Numerous opportunities exist for students with an interest in music. Instrumentalists can play in the orchestra, chamber ensembles and rock group and singers can join the Senior Choir and Saint Felix Choral Society, all of which rehearse weekly. Other smaller groups come together for specific occasions, such as the annual House Shout and House Music Competition. There are regular formal and informal concerts, in school and elsewhere, workshops and trips and opportunities to join the various county orchestras and bands locally. Well-qualified visiting teachers offer individual vocal and instrumental lessons on a weekly basis. The school is a centre for ABRSM Music examinations and the RSCM Voice for Life scheme and pupils also take Trinity, LCM and Rock School examinations.

The Music Department is well-resourced, with a large rehearsal room and a suite of practice rooms. The Chapel is used regularly for rehearsals, lessons, recording sessions, recitals and concerts; it has a large organ, a grand piano – and resonant acoustics! The school has recently invested in new equipment for rock musicians and is continuing to update the technology suite, which runs both Sibelius and a choice of digital audio workstations.

INFORMATION TECHNOLOGY

Available whenever the school is open, the computer network offers full internet access as well as word processing, spreadsheets, databases, desktop publishing and graphics packages, in support of all subject areas. You can use the network facilities in the Sixth Form Study Centre. We recommend you invest in a laptop if you do not already have one, as it becomes an invaluable tool during your Sixth Form studies.

DRESS CODE

In recognition that the Sixth Form sets an example to the school community, the dress code for students is formal work wear; tailored suits.

DRIVING

Students are only permitted to bring a car on-site with the permission of the Head of Sixth Form and they are not allowed to take other students in their cars without written permission from parents. You may learn to drive in your study time in the Sixth Form, but must ensure driving lessons do not coincide with school commitments.

COURSE INFORMATION

BIOLOGY Edexcel

Biological Science is one of the broadest and most important subjects in the world today. It encompasses everything from the molecular study of life processes right up to the study of animal and plant communities. With its mixture of scientific method, problem solving, practical skills and socially relevant content, it offers students the opportunity to develop a wide range of transferable skills.

UNITS OF STUDY

The A Level Biology B course has a total of 10 topics taught over the two-year period. The Practical Endorsement aspect of the course is a compulsory requirement, which is internally assessed by the teacher and externally monitored by the examination board.

ASSESSMENT

The Pearson Edexcel A Level Biology B course consists of three externally examined papers and the Science Practical Endorsement.

- Paper 1: Advanced Biochemistry, Microbiology and Genetics (30%)
- Paper 2: Advanced Physiology, Evolution and Ecology (30%)
- Paper 3: General Practical Principles in Biology (40%)

Students who demonstrate the required standard across all the requirements of the common practical assessment criteria will receive a 'pass' grade. The practical endorsement does not contribute to the overall grade for A Level Biology, but the result will be recorded on the student's certificate.

CHARGEABLE REQUIREMENTS

None

COURSE REQUIREMENTS

The minimum prerequisite for entry is a Grade 6 in GCSE Biology or Grade 7 and above for Combined Science.

BUSINESS STUDIES AQA

Business is front page news. The way companies operate is under greater scrutiny than ever before, while TV programmes like The Apprentice and Dragons Den raise their profile. In today's volatile world, it is important to understand the significant impact that decisions made by businesses have on individuals and organisations.

UNITS OF STUDY

- What is a Business?
- Managers and Leaders
- Decision making to improve performance
 - o Marketing
 - o Operations
 - o Finance
 - o Human Resources
- Analysing the current strategic position of the business
- Choosing the strategic direction of the business
- Managing strategic change

ASSESSMENT

The A Level is assessed by three 2-hour examinations carrying equal weight of 100 marks each.

- Paper 1 – Multiple-choice questions, short answer questions and two essays
- Paper 2 – Three compulsory data response questions
- Paper 3 – One compulsory case study

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

No previous knowledge is needed. Standard Saint Felix Sixth Form GCSE entry requirements.

CHEMISTRY Edexcel

Students are encouraged to develop their interest in, and enthusiasm for, Chemistry including developing an interest in further study and careers in Chemistry. To appreciate how society makes decisions about scientific issues and how the sciences contribute to the success of the economy and society, whilst demonstrating a deeper appreciation of the skills, knowledge and understanding of How Science Works.

UNITS OF STUDY

- Atomic Structure and the Periodic Table
- Bonding and Structure
- Redox
- Inorganic Chemistry and the Periodic Table
- Formulae, Equations and Amounts of Substance
- Organic Chemistry
- Modern Analytical Techniques
- Energetics
- Kinetics
- Equilibrium
- Acid-base Equilibria
- Transition Metals

ASSESSMENT

- Paper 1 (30%)
- Paper 2 (30%)
- Paper 3 (40%)

The students also complete a number of core practical experiments, which lead to a Science Practical Endorsement.

CHARGEABLE MATERIAL

None

COURSE REQUIREMENTS

The minimum prerequisite for entry is a Grade 6 in GCSE Chemistry or Grade 7 and above for Combined Science.

CHINESE Edexcel

Chinese A Level offers students the opportunity to gain greater understanding of Chinese language and culture and prepares them to become confident communicators in a language spoken by over 1 billion people. The ability to speak Chinese is such a valued asset in today's globalised world and the job market.

UNITS OF STUDY

- Food, diet and health
- Transport, travel and tourism
- Education and employment
- Leisure, youth interests and Chinese festivals
- Environment (energy, pollution and environmental campaigns)

ASSESSMENT

- AS Unit 1 Spoken Expression and Response in Chinese (15%)
- AS Unit 2 Understanding and Written Response in Chinese (35%)
- A2 Unit 3 Understanding, Written Response and Research in Chinese (50%)

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

Students should be able to speak and write Chinese to GCSE Grade 6 standard or be native speakers.

DRAMA AND THEATRE STUDIES Pearson Edexcel

The A Level qualification in Drama and Theatre Studies encourages creativity, focusing on practical work that reflects twenty-first century practice. Students will explore the performance, directorial and design roles that are central to the theatre-making process and have the opportunity to create and develop their own performance ideas.

UNITS OF STUDY

- Component 1: Devising an original piece of theatre.
- Component 2: Text in Performance
- Component 3: Theatre Makers in Practice

ASSESSMENT

- Component 1 is internally assessed and externally moderated (40%)
- Component 2 is externally assessed by a visiting examiner (20%)
- Component 3 is a written exam externally marked (40%)

CHARGEABLE MATERIALS

Theatre visits and visiting practitioner workshops.

COURSE REQUIREMENTS

Standard Saint Felix Sixth Form GCSE entry requirements and GCSE Drama at Grade 5 and above is preferable though not essential.

EAL - IELTS British Council and Cambridge Assessment English

Students with English as an Additional Language are examined in IELTS if they want to study at universities where English is the medium of communication. EAL lessons prepare students for IELTS by developing their understanding of academic language and increasing the competency of their reading, writing, speaking and listening skills.

UNITS OF STUDY

Units of study are based around developing the four skills of reading, writing, speaking and listening through a broad range of topics including: health, food and diet, education, the environment, science and technology, town and country, work, social changes, crime and the law, global problems, the arts, business and the media.

ASSESSMENT

IELTS is assessed by 4 examinations:

- Reading – a one-hour examination of three reading passages with a total of forty questions, including multiple choice, sentence completion, short answer questions, true/false/not given statements.
- Writing – a one hour examination of two writing tasks: a written summary of given data represented in the form of a graph, table, diagram or map; and an essay in response to a given point of view, argument or problem.
- Speaking – a fifteen-minute oral interview between the student and the examiner.
- Listening – a thirty-minute test of listening comprehension based on monologues and dialogues with a total of forty questions including multiple choice, note completion, diagram completion.

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

Ideally, students should be starting the course with a minimum IELTS Band 5 or equivalent, however additional EAL lessons can be provided at an extra cost for those whose level of English is weaker.

ECONOMICS AQA

Economics considers how societies can make the best use of the limited resources available to them. It encourages you to think about many of the issues that society faces today. It will help you to understand, and answer many important questions such as:

- How do societies use finite resources to provide the highest possible standard of living for their citizens?
- Why do some people get paid much more than others?
- What does the globalisation of world markets mean for consumers, businesses and governments?

UNITS OF STUDY

Basic Economic Ideas and Resource Allocation

The Price System and the Micro Economy

Individuals, firms, markets and market failure

The national and international economy

Government Microeconomic Intervention

The Macro Economy

Government Macro Intervention

ASSESSMENT

Paper 1 – Markets and Market Failure - 2 hour written paper

Paper 2 – National and International Economy – 2 hour written paper

Paper 3 – Economic Principles and Issues – 2 hour written paper

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

No previous knowledge is required. Standard Sixth Form entry applies.

ENGLISH LITERATURE OCR

English Literature remains a highly regarded and popular subject for study at A Level and university. The skills developed - interpreting texts, developing coherent arguments, evaluating evidence - are relevant across academic disciplines and help to qualify students for a number of potential careers including media, law and teaching. Beyond the utility of the subject, the study of English Literature gives students an insight into culture and society and an understanding of ways in which meaning and language is constructed. A key theme throughout the course is the representation of women in the texts studied.

UNITS OF STUDY

- Year 1
 - o The Poetry of Christina Rossetti, A Doll's House, The Bell Jar, A Streetcar Named Desire
- Year 2
 - o The Great Gatsby, The Age of Innocence, The Tempest

ASSESSMENT

The A level is assessed internally (with external moderation) and externally.

- Paper 1 (2 1/2 hours) – Poetry and Drama pre-1900 (40%)
- Paper 2 (2 1/2 hours) – Comparative and Contextual Studies (40%)
- Paper 3 – Coursework (Internal Assessment) – a close reading task of 1000 words and a comparative essay of 2000 words (20%)

CHARGEABLE MATERIALS

As students will normally annotate texts, they are required to purchase their own copies, although critical commentaries and analyses are provided, students are again encouraged to obtain their own copies.

COURSE REQUIREMENTS

To commence an A Level course in English Literature it is usual to have taken GCSE English Language and English Literature and achieved a Grade 5 or above. Equally important is a love of literature and the ability and desire to read widely round the set texts.

ART & DESIGN: FINE ART AQA

A practical subject based on key skills and areas of drawing, painting, printmaking, sculpture and multi-media, working in two and three dimensions. Offering opportunities to gain an understanding of the creative process, ability to observe and think, to solve problems and communicate in a visual way. It enables students to work independently and to make their own discoveries by exploring ideas, other artists' work and use different materials and techniques and gives student's skills and knowledge to create personal and imaginative work.

UNITS OF STUDY

Coursework

- Introductory phase learning skills, techniques and processes in painting, printmaking and drawing.
- Formal analysis of the work of key artists and introduction to different styles.
- Planning and creating a Personal Investigation supported with an extended essay.

Externally Set Assignment – Supervised Time

An extended practical project - 15-hour period

ASSESSMENT

- Component 1 – Personal Investigation (60%)
- Component 2 – Externally set assignment & Supervised Time of 15 hours (40%)

CHARGEABLE MATERIALS

A workbox and equipment such as brushes, scissors, glue and a range of basic wet and dry media will be provided at a one off charge of £40 and all sketchbooks are chargeable.

Framing and mounting of work for examination will be charged at cost price.

COURSE REQUIREMENTS

Art and Design at GCSE is desirable. Candidates without a prior qualification will be considered on merit.

MODERN FOREIGN LANGUAGES

FRENCH AQA

The A Level course builds on the knowledge, understanding and skills gained at GCSE. Throughout the two-year course, students will learn the language in the context of French-speaking countries and the issues and influences which have shaped them. They study technological and social change, looking at diversity and the benefits it brings. They will also study highlights of French-speaking artistic culture, including francophone music and cinema, and learn about political engagement in the French-speaking world. Students will have the opportunity to carry out independent research on an area of their choice.

Studying French A Level will:

- Improve your career options
- Develop your comprehension of the world and your communication skills
- Increase your education opportunities
- Enhance your travel and cultural experiences

UNITS OF STUDY

- Aspects of French-speaking society : current trends and current issues
- Artistic culture in the French speaking world
- Aspects of political life in the French speaking world
- Literary texts and films
- Individual research project

ASSESSMENT

The A Level is assessed by 3 examinations:

- Paper 1: Listening, Reading and Writing 2 hours 30 minutes
100 marks. 50% of A Level
- Paper 2: Writing 2 hours 80 marks. 20% of A Level
- Paper 3: Speaking 21–23 minutes (including 5 minutes preparation time) 60 marks.
30% of A Level

CHARGEABLE MATERIALS

No chargeable materials although AQA workbooks will be recommended. Approximate cost of £6.

COURSE REQUIREMENTS

This course is for students who wish to build upon the skills gained at GCSE level at Grade 5 or above.

FURTHER MATHEMATICS Edexcel

It is a significant advantage to have studied at least some A Level Further Mathematics if you wish to pursue your study of Mathematics, or indeed any scientific-based subject such as Physics or Engineering, at university. With a variety of optional modules available one can tailor the A Level to suit strengths and preferences.

UNITS OF STUDY

- Year 1 Core Pure Mathematics
- Year 1 Further Mathematics Option (3A-3D)
- Year 2 Core Pure Mathematics
- Year 2 Further Mathematics Option (4A-4G)

ASSESSMENT

The A Level is assessed by four 1 hour 30 minute long written examinations carrying equal weight of 75 marks each

- Paper 1 – Pure Mathematics (9FM0/01)
- Paper 2 – Pure Mathematics (9FM0/02)
- Paper 3 – Option 1 (9FM0/3A-3D)
- Paper 4 – Option 2 (9FM0/4A-4G)

CHARGEABLE MATERIALS

None, although a calculator that has an iterative function and the ability to compute summary statistics and access probabilities from standard statistical distributions is essential: The Mathematics Department recommends the CASIO fx-991 EX and is the calculator used by our A Level teachers themselves.

COURSE REQUIREMENTS

To commence an A Level course in Further Mathematics it is usual to have taken GCSE Mathematics Higher Tier and achieved a Grade 7 or above and be expecting to achieve at least a Grade B in A Level Mathematics. A good level of English is also required to access the content.

GEOGRAPHY AQA

Geography is rarely out of the news. From hazards such as volcanoes and tsunamis to global warming, geopolitical trade blocs and globalisation, students are faced with challenges at all scales. They will need to consider their perceptions of the world and the way they are able to use investigative and analytical skills to understand what is going on.

UNITS OF STUDY

- Water and carbon cycles
- Coastal systems and landscapes
- Hazards
- Global systems and global governance
- Changing places
- Contemporary urban environments

ASSESSMENT

- Paper 1 – Multiple choice, short answer and extended prose (40%)
- Paper 2 – Multiple choice, short answer and extended prose (40%)
- Fieldwork investigation – (20%)

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

No previous knowledge is needed. Standard Saint Felix Sixth Form entry requirements

HISTORY Edexcel

History at post-16 teaches you never to accept the written or spoken word at face value; to discriminate between fact and fiction and to understand that all human concerns are complex and should be judged with care and without emotion. Valuable skills to take into the work place and life in general.

UNITS OF STUDY

- England, 1509-1603: Authority, Nation and Religion. (Paper 1)
- Luther and the German Reformation, c 1515-55. (Paper 2)
- The witch craze in Britain, Europe and North America, c 1580-1750. (Paper 3)
- Coursework: An internally assessed and externally moderated piece of work that allows students to select and investigate a historical controversy of their choice. An example might be:
To what extent was German militarism responsible for the outbreak of the First World War?

ASSESSMENT

The A Level is assessed in three exams and a piece of coursework

- Paper 1 (30%)
- Paper 2- (20%)
- Paper 3- (30%)
- Unit 4- (20%)

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

A minimum of Grade 4 for GCSE History and/or English

LATIN OCR

Latin is widely accepted (and in many cases positively admired) for university entrance whether or not students continue studying the subject, due to the huge amount of transferable skills derived from learning the language and analysing the literature. The skills and disciplines needed to succeed in the subject are widely admired by a diverse range of potential employers.

UNITS OF STUDY

- Language: Building on language knowledge from GCSE with a wider range of vocabulary and more complex grammar.
- Prose: Study of two prose set texts in their historical and literary context.
- Verse: Study of two verse set texts in their historical and literary context.

ASSESSMENT

A Level Latin is assessed by four examinations:

- Unseen Translation - Translation of unseen prose and unseen verse into English. (33%)
- Prose Composition OR Comprehension translation of English into Latin (prose composition) OR translation and comprehension questions on a passage of unseen Latin. (17%)
- Prose Literature - Translation and critical analysis of two prose set texts. (25%)
- Verse Literature - Translation and critical analysis of two verse set texts. (25%)

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

Latin at GCSE Grade 5 and standard Saint Felix Sixth Form GCSE entry requirements.

MATHEMATICS Edexcel

It goes without saying that an A Level in Mathematics is of enormous benefit as a preparation for Higher Education courses such as Mathematics, Physics, Chemistry and Engineering as well as broadening one's experience of how the subject relates to the world in general. It is, simply, a very useful qualification to possess in any walk of life.

UNITS OF STUDY

- Year 1 Pure Mathematics
- Year 1 Statistics and Mechanics
- Year 2 Pure Mathematics
- Year 2 Statistics and Mechanics

ASSESSMENT

The A Level is assessed by three 2 hour written examinations carrying equal weight of 100 marks each.

- Paper 1 – Pure Mathematics (9MA0/01)
- Paper 2 – Pure Mathematics (9MA0/02)
- Paper 3 – Statistics and Mechanics (marks split 50/50) (9MA0/03)

CHARGEABLE MATERIALS

None, although a calculator that has an iterative function and the ability to compute summary statistics and access probabilities from standard statistical distributions is essential: the Mathematics Department recommends the CASIO fx-991 EX and is the calculator used by our A Level teachers themselves.

COURSE REQUIREMENTS

To commence an A Level course in Mathematics it is usual to have taken GCSE Mathematics Higher Tier and achieved a Grade 7 or above. Students with Grade 6 may find they will struggle with the more challenging content as well as the pace of learning, but students are considered on an individual basis. A good level of English is also required to access the content.

MUSIC Edexcel

For many musicians, music is about performing or composing and both of these are at the heart of the A Level Music course. However, to become a well-rounded musician, an understanding of different genres and styles of music through time is essential and this is provided through an in-depth study of a wide range of set works (from classical music to popular, rock, jazz and world music), which underpins the practical work. The course is an excellent preparation for further training at university, specialist music college or conservatoire, leading to a career in the music industry. It is also an excellent complement to A Levels in any other field and will give you a life-long enjoyment of music of all kinds, both as a listener and a performer.

UNITS OF STUDY

- Performing
- Composing
- Listening and Appraising – musical elements, context and language

ASSESSMENT

- Unit 1 – externally assessed performance – 30%
- Unit 2 – externally assessed composition – 30%
- Unit 3 – examination – 40%

CHARGEABLE MATERIALS

You will need to purchase the Edexcel/Pearson Anthology of Music for A Level. You will also be expected to take individual instrumental or vocal lessons with a private teacher, in or out of school.

COURSE REQUIREMENTS

You should have at least Grade 5 or equivalent on your first instrument (or voice) and a knowledge of music theory of at least Grade 5 standard; if you have studied Music at GCSE Level, you should have achieved Grade 6 or above.

ART & DESIGN: PHOTOGRAPHY AQA

Photography is about looking, exploring, selecting, learning, thinking and communicating ideas. It is one of the most ubiquitous art forms in the world today and everyone who has a mobile phone has greater access to photography than ever before. There are many genres of photography and as consumers we experience photographic images in many contexts. An understanding of these genres and contexts and the critical use of the visual language informs the picture-making process.

UNITS OF STUDY

Coursework

- Diagnostic introduction to digital photography image-capture, key considerations when selecting and framing subject matter. Post-production - key editing techniques and processes use of editing software and editing a shot.
- Visual studies of the work of key photographers and introduction to different genres, subject specific vocabulary, and formal analysis techniques. Exhibition visits and write-ups.
- Practical work, short tasks and extended projects based on specified starting points. Research skills.
- Development of critical thinking through reviewing and refining ideas.
- Planning and creating a Personal Investigation supported by an extended essay.

Externally set Assignment - Supervised Time: An extended practical project based on a starting point set by the examination board, culminating in a 15 hour period of supervised independent work.

ASSESSMENT

- Component 1 - Personal Investigation (60%)
- Component 2 - Externally set assignment & Supervised Time of 15 hours (40%)

CHARGEABLE MATERIALS

Consumable materials are charged for on a pro-rata basis together with a termly contribution to the cost of ink. There will also be framing costs at the end of the course.

COURSE REQUIREMENTS

Students should have their own digital SLR camera by which their commitment to the subject is demonstrated and they are able to take full advantage of photo opportunities away from school. GCSE Photography or Art are of great benefit to successful study as are well-developed visual literacy skills and a genuine interest in the subject.

PHYSICAL EDUCATION OCR

Ever wondered why some people can run faster than others? How your personality affects your performance? How you could become an elite sports performer? Why people take drugs? How technology can help you? These are just a few of the questions studying Physical Education could help you answer.

UNITS OF STUDY

- Physiological Factors affecting performance Applied anatomy & physiology, Exercise Physiology & Biomechanics
- Psychological Factors affecting performance Psychology and Skill Acquisition
- Socio-Cultural Issues in Physical Education Sport and society, Technology & Contemporary Issues in physical activity
- Performance in PE

ASSESSMENT

The A Level is assessed by three written examinations, practical performance and oral analysis of performance in one activity.

- Paper One - Multiple Choice questions, short answer questions and one synoptic question (30%)
- Paper Two - Multiple Choice questions, short answer questions and a synoptic question (20%)
- Paper Three - Multiple Choice questions, short answer questions and a synoptic question (20%)
- Practical Performance - Performance or coaching in one activity (15%)
- Analysis of Performance - Oral (15%)

CHARGEABLE MATERIALS

N/A

COURSE REQUIREMENTS

Students should have achieved a Grade 5 or above in Science. It would be beneficial to have studied GCSE PE but NOT essential. You must play one sport (taken from an approved list provided by the Examination Board) on a regular and competitive basis or be coaching performers over the age of 13 on a regular basis in one sport.

PHYSICS Edexcel

Physics is a creative subject - The concepts are man-made. This is just as creative as composing music, or writing a novel. Physics gives you a new appreciation of the world around you. Viewing a rainbow, you can marvel at the interactions between photons and electrons occurring when light from the sun strikes water droplets in the sky. Physics is intellectually challenging, and it is rewarding when you succeed at something that is difficult.

UNITS OF STUDY

- Unit 1: Physics on the Go - Rectilinear motion; forces; energy and power; fluid flow and viscosity; properties of materials and Young's modulus.
- Unit 2: Physics at Work - Waves; refraction; polarisation; diffraction; standing waves; Doppler effect; current electricity; photons; wave particle duality.
- Unit 3: Physics on the Move - Momentum; circular motion; electric and magnetic fields; capacitors and discharge; particle physics; Standard Model; de Broglie.
- Unit 4: Physics from Creation to Collapse - Thermal energy; specific heat; ideal gas equation; Boltzmann constant; nuclear decay; oscillations; SHM; astrophysics; gravitational fields; cosmology; fusion.

ASSESSMENT

- Paper 1 - 30%
- Paper 2 - 30%
- Paper 3 - 40%

In addition, there is an assessment of practical skills. This is partly assessed by completion of Core Practical tasks and partly by assessment of practical skills within the written papers.

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

Ideally, students should have GCSE Grade 7 in Physics or Science and a Grade 6 in Mathematics. If you are not a native English speaker, an IELTS score of 5.5 to 6 will enable you to access the course.

PSYCHOLOGY AQA

The A Level Psychology course introduces you to the many explanations psychologists offer for why people think, feel and behave the way they do. The course will equip you with the practical skills and research methods knowledge to enable you to undertake psychological research and realise the application of Psychology to the real world. It is a valuable A Level for anyone considering person-centred courses at university, including Nursing, Speech and Language Therapy, Education, Criminology and Medicine, as well as pursuing Psychology at undergraduate level.

UNITS OF STUDY

Paper 1: Introductory Topics in Psychology: Social Influence, Memory, Attachment and Psychopathology

Paper 2: Psychology in Context: Research Methods, Approaches and Biopsychology.

Paper 3: Issues and Options in Psychology: Issues and Debates, Aggression, Cognitive Development and Schizophrenia.

ASSESSMENT

A Level Psychology is assessed by three, two-hour written examinations. Each exam is worth 33% of the final A Level grade.

CHARGEABLE MATERIALS

None

COURSE REQUIREMENTS

Standard Saint Felix Sixth Form GCSE entry requirements.

MODERN FOREIGN LANGUAGES SPANISH AQA

The A Level Spanish course aims to build upon the confidence and competence in the language gained at GCSE. Ideas and attitudes on a range of topics are developed. Students explore their own interests through the medium of Spanish and are offered insights into the culture and civilisation of Spanish speaking countries as well as the nature of language itself.

The course concentrates on developing oral fluency and conversation skills in A Level speaking tests. It provides a range of stimulating and absorbing study topics with contemporary, literary and cultural content.

Students will gain:

- Lasting appreciation of language learning.
- Ability to comprehend Spanish in a wide range of context.
- Ability to communicate readily in Spanish for a variety of purposes.
- Useful knowledge of insights into Spanish cultures, both contemporary and historic.
- Valuable skills for foreign travel, further education and employment with many of the world's leading economies demanding employees who are Spanish speakers.

UNITS OF STUDY

- Aspects of Hispanic society
- Multiculturalism in Hispanic society
- Artistic culture in the Hispanic world
- Aspects of political life in the Hispanic world
- Literary texts and films

ASSESSMENT

The A Level is assessed by 3 examinations:

- Paper 1: Listening, Reading and Writing 2 hours 30 minutes. 100 marks. 50%
- Paper 2: Writing 2 hours. 80 marks. 20%
- Paper 3: Speaking 21–23 minutes (including 5 minutes preparation time) 60 marks. 30%

CHARGEABLE MATERIALS

None, although AQA workbooks will be recommended to aid revision. These cost around £4.
One retreat and revision study trip could cost around £400.

COURSE REQUIREMENTS

This course is for students who wish to build upon the skills gained at GCSE level at Grade 5 or above.

TEXTILE DESIGN AQA

Students will be introduced to a variety of experiences that explore a range of textile media, processes and techniques. They will be working in one or more areas of textile design, such as fashion design, fashion textiles, costume design, digital textiles, printed/dyed textiles, constructed textiles and art textiles. Students will relate their work to relevant images, artefacts and resources and extend their understanding of different contexts, styles, genres and traditions.

UNITS OF STUDY

Coursework

- Introductory phase learning skills, techniques and processes.
- Formal analysis of the work to relevant images, artefacts and resources and introduction to different styles.
- Planning and creating a personal investigation supported with an extended essay.

Externally Set Assignment – Supervised Time

An extended practical project - 15-hour period

ASSESSMENT

- Component 1 – Personal Investigation (60%)
- Component 2 – Externally set assignment (40%)

CHARGEABLE MATERIALS

All sketchbooks are chargeable. On occasion, materials for independent work can be ordered through the department and placed on the school bill.

COURSE REQUIREMENTS

Art and Design at GCSE level is desirable. Candidates without a prior qualification will be considered on merit.

THE EXTENDED PROJECT QUALIFICATION (EPQ)

What is the Extended Project Qualification?

The Extended Project Qualification (EPQ) is an independent research project which is worth the equivalent of half an A Level. Alongside your other A Level qualifications, you will have the opportunity to research an academic question that you construct yourself. From your research, you will then write a mini dissertation to summarise and evaluate your findings. You also have to be able to demonstrate that you have spent 120 hours of work on your EPQ. This will be through an activity log.

Your project can be centred around one of your A Level subjects, or you can investigate a topic outside of your academic studies that can extend your knowledge about an area of interest.

Example of past EPQ questions include:

- Should vaccinations be compulsory for all primary school children in the UK?
- Can the study of biology and psychology help to explain why criminals commit crimes?
- Are electric cars actually better for the environment?
- To what extent do nuclear weapons have a role in contemporary international relations?

How is the EPQ examined?

There is no exam for the EPQ, but you are awarded marks for various academic activities:

- Managing the project, including the project proposal and an activity log.
- Finding and using resources, including using an academic referencing system.
- Developing the final research project. This is the written dissertation.
- Evaluation of your EPQ, including an oral presentation to summarise your project.

How will the EPQ be taught?

The EPQ is an independent project and you need to be able to plan and manage your own time. However, in the early stages of your project, you will have taught sessions with Mrs Treby, which will help you develop the core academic skills that you need to be successful in you the EPQ. This includes accessing resources, referencing conventions and academic writing. You will also have regular individual tutorials with Mrs Treby to check your progress.

Why should I consider completing an EPQ?

The EPQ is an excellent opportunity to develop academic knowledge and skills that will support you in your A Level studies. Recent research has also concluded that completing EPQ also enhances academic achievement across other subjects.¹ The EPQ also support you with the transition to university, and the completing in EPQ is actively encouraged by universities including Cambridge and Oxford and Russell Group institutions.²

How do I apply to do an EPQ?

Year 12 Students can apply to do an EPQ in the spring term. To be successful in securing a place on the EPQ course you need to be able to demonstrate a positive attitude to learning, excellent attendance, as well achieving consistently high grades in your main A Level subjects.

For more information, please contact Mrs Treby, Head of Sixth Form: ktreby@stfelix.co.uk
